## Personal Appearance for Uniform Program

General requirements regarding the personal appearance of staff at National, Alamo, Enterprise (where applicable), and dual-branded locations.

When representing these brands, it is important that employees project an image that is consistent with our established service reputation. Therefore, all full- and part-time field operations employees, including managers, must adhere to appearance requirements and wear company-approved uniforms.

Enterprise Mobility strives to maintain a professional atmosphere that is conducive to the business environment, contributes to the morale of all employees, and projects an image of efficiency and professionalism to those with whom we interact. All employees are expected to exercise sound, professional judgment in maintaining a positive and professional appearance, and may dress consistently with the gender with which they identify. While there may be differences from one person to another, everyone is expected to make a professional impression in their own style. Radical departures from professional dress, personal grooming or hygiene standards are not permitted.

If an employee reports to work improperly dressed or groomed, a manager may ask the employee to return home to change clothes or may take other appropriate corrective action. Employees will not be paid for such time away from work, and repeated violations will be cause for disciplinary action.

### General Uniform Guidelines

- New employees should have uniforms ordered between their first and 30th day of employment.
- Employees should maintain their uniforms, keeping them clean, pressed, and presentable at all times.
- Only uniformed employees are allowed behind the counter at any given time.
- If in customer view, employees must arrive to work in full uniform.
- All levels of Management with the exception of Maintenance Managers are not required to wear a uniform.

### UNIFORM PIECES ARE TO BE WORN AS FOLLOWS:

When a tie is not worn, the top button of the blouse/shirt may be left open. Sheer or revealing clothing requires an undershirt or a camisole.

#### Polo Shirts:

Polo shirts must be tucked in at all times. The top button may be left open.

#### T-shirts:

## Personal Appearance for Non-Uniform Program

General requirements regarding the personal appearance of employees that are not required to wear a uniform.

Enterprise Mobility strives to maintain a professional atmosphere that is conducive to the business environment, contributes to the morale of all employees, and projects an image of efficiency and professionalism to those with whom we interact. All employees are expected to exercise sound, professional judgement in maintaining a positive and professional appearance, and may dress consistently with the gender with which they identify. While there may be differences from one person to another, everyone is expected to make a professional impression in their own style. Radical departures from professional dress, personal grooming or hygiene standards are not permitted.

If an employee reports to work improperly dressed or groomed, a manager may ask the employee to return home to change clothes or may take other appropriate corrective action. Employees will not be paid for such time away from work, and repeated violations will be cause for disciplinary action.

Although some groups and regions may differ slightly the following general guidelines apply unless a relaxed, "summer" dress code is in effect:

### Employees Working in Branches, Offices, Dealerships, or in Customer or Business Partner-Facing Positions:

Such employees are asked to "dress for your day," taking into account scheduled activities and the individuals with whom the employee will be interacting. As such, any combinations of the following is considered appropriate dress attire.

- Collared shirts or blouses
- Sleeveless blouses and dresses may be worn with or without a jacket. Sleeveless articles must cover collar bone to shoulder joint.
- Dress slacks, khaki-style pants, dresses or skirts; provided, however, skirts and dresses should not be shorter than two inches above the knee.
- Suit or jacket and tie (suit coats or jackets are recommended for most business calls, and ties may be appropriate in some circumstances, such as attending a business meeting of vendors, customers or accounts who will be in professional dress or for internal interviews)
- Business appropriate leather or suede garments may be worn.

Such employees will also be expected to adhere to the following appearance guidelines:

- Hair should be clean and well maintained
- All hair textures are appropriate, as are braids, locs, twists and bantu knots
- Facial hair must be neatly trimmed and groomed
- Earrings and a single, small, stud or hoop piercing on either nostril are permitted
- All clothing should be clean, pressed, and properly fitted and/or hemmed
- Comfortable and clean shoes may be worn, including loafers, oxfords, mules, open-toes shoes, low or high heel boots, casual sneaker-type shoes (e.g. leather, suede, mesh, canvas, or nubuck uppers with matching or contrast laces and rubber soles), or active, tennis shoes or athletics sneakers that are predominately all-white or all-black. Tennis or athletic shoes must be all or a combination of white or black, with no other colors present on any part of the shoe. Shoes should be free of excessive wear. (e.g., holes).

### Employees Working in Positions Having No Customer or Business Partner Interaction:

Employees who are working in positions requiring no customer or business partner interaction may have more relaxed dress and appearance standards, including, for example, shorts, polos, and tattoos (so long as the content or messaging is not obscene, offensive, hateful or profane). Employees in such roles should direct any questions regarding dress and appearance to their manager or group or regional Human Resources manager.

### Brand Specific Standards

In addition, it is essential for employees to project an image that is consistent with the unique dress and attire standards associated with each distinct brand. Such brand-specific standards may supplement or supersede the general guidelines listed above. All employees are required to adhere to applicable brandspecific standards.

Employees with questions concerning the personal appearance policy, including questions relating to exceptions for disabilities or religious attire, should direct them to their manager or to Human Resources

### Nametags:

A current company-issued nametag, with the correct employee name and brand, is to be worn on the outermost garment by all Managers.

- Nametag for management personnel has the option to use first name only or first and last name with "Manager" on the badge (exception: Alamo nametags – first name only)
